

Summit Solar Lantern

Instructions:

Charging Lantern:

Red light around the dial indicates batteries are charging. Blue light indicates a full charge.

Solar Charge:

Open lid to expose solar panels. Position the lantern in direct sunlight. It will take approximately 15 hours for a full charge.

AC Charge:

Plug AC charge adapter into the lantern and plug it into 110V AC outlet.

Warning: Do not charge the battery for more than 5-6 hours when charging from AC adapter.

DC Charge:

Plug DC charge adapter into the lantern and plug it into a 12 Volt DC car adapter.

Charging Cell Phones or other hand held devices from the lantern.

1. Fully charge lantern using instructions above.
2. Using a USB cable for hand held devices, connect the lantern to the hand held device and follow hand held instructions for charging.

Lantern Care

1. If using lantern on a daily basis, charge lantern in direct sunlight every day to keep the batteries fully charged.
2. Turn lantern off when not in use.
3. If lantern is not used for more than 8 weeks, it is important to charge the batteries to maintain the life of the batteries.

Using Lantern

The lantern can run on battery power when fully charged or plugged into AC or DC power for continuous use. The blue light around the dial will be on when in use. Turn dial clockwise to desired light setting.
